TECH INTERESTS

Tools and Focus Areas

Learning with intention, understanding the structure behind modern web tools.

WordPress Core Development   Frontend Development   HTML, CSS, JavaScript   Elementor (with structure understanding)

Tailwind CSS (learning)   Git and GitHub

How I Learn

Hands-on practice, experimentation, and steady improvement through real projects.

Building UI layouts

Crafting clear, responsive layouts that feel intentional and easy to use.

Exploring new web technologies

Staying curious about trends, tools, and patterns that shape modern web experiences.

Practicing frontend challenges

Solving challenges to improve problem solving and core frontend fundamentals.

Learning through real projects

Applying knowledge by building complete themes and experimenting with features.

Thank You, Internee.pk

Grateful to Internee.pk for providing a virtual internship opportunity to grow practical WordPress and frontend development skills. This experience makes learning feel real.

FUTURE GOALS

What I am Working Toward

Clear direction, consistent practice, and a focus on production-ready work.

- ✓ Become a professional WordPress and frontend developer.
- ✓ Build custom themes without relying on page builders.
- ✓ Work on real-world production websites.
- ✓ Improve JavaScript and React skills.

Internee Profile

Built for the Internee.pk Virtual Internship Program.
